EXPERIENCE

Crossroads Media – Los Angeles, CA

June 2026 – Present

Product Strategy Consultant

- Developed commercialization and growth strategy for an AI-powered entertainment startup, identifying 3 enterprise customer segments and pricing recommendations to support launch.
- Worked cross-functionally with founders, AI consultants, and product stakeholders to prioritize product roadmap decisions, evaluate technical tradeoffs, and align technology investments with business objectives.
- Supported early-stage business planning through pricing strategy, partnership development, and technology cost optimization to prepare the company for product launch.

USC Marshall Consulting Projects – Los Angeles, CA / Seoul & Hong Kong

January 2026 – Present

AI Strategy Consultant (Cinelytics) | Strategy Consultant (Hong Kong Disneyland) | Strategy Consultant (USC Athletics)

- Conducted 20+ executive and industry interviews to evaluate product-market fit for Cinelytics’ AI platform, delivering commercialization and product strategy recommendations.
- Developed franchise growth strategy for Hong Kong Disneyland’s Duffy & Friends by identifying opportunities across consumer products, digital content, and fan engagement to strengthen long-term IP value.
- Developed strategic recommendations for USC Athletics by evaluating fan engagement, sponsorship opportunities, and content strategy to drive audience growth and revenue generation.

American Express – Phoenix, AZ

January 2022 – June 2024

Strategy & Product Development (Cybersecurity)

- Led an enterprise-wide access optimization initiative, eliminating 500K+ unnecessary user permissions to reduce operational risk, strengthen regulatory compliance, and improve operational efficiency.
- Redesigned project intake and cross-functional planning processes, improving prioritization and reducing delivery timelines by ~15% across multiple engineering teams.
- Developed an AI-powered recommendation engine to optimize enterprise access management, collaborating with stakeholders across 12 engineering teams to drive enterprise adoption.

DDC Productions – Tempe, AZ

June 2023 – May 2024

Producer & Co-Writer

- Produced and co-wrote an independent short film, leading a 15-person team, managing a \$6K budget, and coordinating production from development through release.

McKesson Corporation – Scottsdale, AZ

May 2020 – August 2021

Cybersecurity & Platform Engineering Intern

- Automated infrastructure and onboarding workflows, reducing manual effort by ~20% and improving operational efficiency.
- Selected as McKesson’s ASU Campus Ambassador, leading campus recruiting and employer branding initiatives.
